

To add your resources please do the following:

1. After your member information is added, you will stay in the member systems page. To the right of your system click "View" and you are taken to the NEWARN member system page.
2. At the bottom there is a tab called system resources, here you click "Add" and then you can start to enter your equipment.
3. If you have a trash pump, you can highlight trash pump and then give the quantity, whether it's an 8" trailer mount or 3" portable.
4. After you have entered all the resources hit "Save Changes" and resources are added.
5. If you need to add more resources or edit a resource, click on the "Edit" button. Complete this as many times as needed to enter all information for resources.

There is a site support tutorial that will walk you through "How to add resources and other items" if needed.
